

## Trinity Hall School Conversion Middletown, NJ

**As a newly established school, Trinity Hall needed a facility to hold classes in and offer their first students and staff a learning environment reflective of their mission.**

▼ Trinity Hall Values Panels

<b>Project Size</b>	12,000 SF renovations
<b>Project Location</b>	Trinity Hall Croydon Hall Campus 900 Leonardville Road Middletown, NJ 07737
<b>Project Cost</b>	\$3,500,000
<b>Completion Date</b>	August 2013

Trinity Hall acquired a 1960's 12,000 sq.ft. classroom building, gymnasium, and field house on the Croydon Hall Campus in Middletown. To be renovated and programmed as an all-girls private high school, this facility would host only grades 9 and 10 in the starting years with less than 200 students enrolled. DIGroup was tasked with assessing the facility conditions and converting the existing spaces appropriately including the design of a prayer garden. During the development of branding the school with their colors and signage, DIGroup also created environmental graphics to carry their core values of leadership, respect, perseverance, and faith to the interior spaces. Trinity Hall now occupies a new school where the graphics are still displayed.
